BDL TRANSITION
Share Class C (ISIN LU1988108350)
A Sub-Fund of BDLCM Funds, a UCITS managed by BDL Capital Management

Investment Objectives and Policy

BDL TRANSITION (the “**Sub-Fund**”) is a sub-fund of BDLCM Funds (the “**Fund**”).

The investment objective of the Sub-Fund is to achieve an absolute performance by implementing a long covered strategy.

The management team include non-financial criteria in their fundamental analysis of companies in the investment universe and favor those whose ESG criteria (Environment – Social – Governance) target sustainable growth.

The Sub-Fund may invest up to 100% of its total net assets in equity securities of European companies (meaning from the European Union, the United Kingdom, Switzerland and Norway) having a market capitalization or a revenue of at least one billion Euros at the time of the acquisition. The Sub-Fund may invest up to 10% of its total net assets in non-European equities traded on exchanges in member states of the OECD or in companies having less than one billion Euros of revenue and market capitalization.

The Sub-Fund may use financial derivative instruments such as equity index futures and forward, equity index swaps and/or contracts for difference.

The Sub-Fund may invest up to 10 % of its total net assets in UCITS.

When using derivatives, the Sub-Fund may invest in money market instruments including but not limited to treasury bills and commercial paper and deposits, up to 100% of its total net assets.

Under certain exceptional market conditions, the Sub-Fund may hold up to 100% of its assets in cash and/or money market instruments, if the Management Company believes that it would be in the best interest of the Sub-Fund and its Shareholders. When the Sub-Fund is pursuing a defensive strategy, it will not be pursuing its investment objective.

The Sub-Fund operates in all regulated and organized markets in France or in other countries.

The Sub-Fund uses futures and option strategies.

Futures and options strategies are intended either to hedge the portfolio against the downside risk in an underlying equity asset, or to increase portfolio exposure in order to capitalise on the upside in an underlying equity asset.

These strategies are however only contributing on an ancillary basis to achieve investment management targets.

The Sub-Fund is addressed to investors with an investment horizon of 3-5 years and capitalizes accrued income.

The Sub-Fund’s shares are capitalization shares.

Applications for Shares must be received by the Registrar and Transfer Agent every valuation day until the cut-off time fixed at 14:00 (2 pm) Luxembourg time to be dealt with on the basis of the Net Asset Value per Share applicable on that Valuation Date. Applications for shares received by the Registrar and Transfer Agent after that cut-off time will be dealt with on the next Valuation Date.

C shares are reserved to investors whose minimum initial subscription amount is 100 Euros.
