DURANDAL
Share Class B (ISIN LU1891683903)
A Sub-Fund of BDLCM Funds, a UCITS managed by BDL Capital Management

Investment Objectives and Policy

Durandal (the “**Sub-Fund**”) is a diversified sub-fund of BDLCM Funds (the “**Fund**”).

The Sub-Fund is actively managed in reference to the capitalized index EONIA (EURO OverNight Index Average) in order to deliver an absolute performance above the index. The Management Company has significant discretion over the composition of the Sub-Fund’s portfolio (in terms of constituents and allocation). The Sub-Fund may then significantly deviate from the index. The latter may however be used to measure the performance of the Sub-Fund. In order to reach its objective the Sub-Fund is mainly exposed to both long and short in a diversified portfolio of equity securities from the OECD countries, also via the use of equity derivatives (i.e. listed futures and options, CFDs).

The Sub-Fund may invest up to 100% of its net assets in currency derivatives.

The Sub-Fund may also invest in financial derivative instruments so as to (i) seek or reduce exposure to the above assets by using financial listed and OTC derivatives (ii) for efficient portfolio management or (iii) for hedging purposes.

A result, the sensibilities to the several asset classes will be as follows:

- Net sensibility to Rate (duration): +10Yr | -10Yr
- Net sensibility to Equities (delta): +25% | -10% of net asset value

The Sub-Fund will not invest more than 10% of net asset value in other funds.

The Sub-Fund may also invest, on an ancillary basis, in financial derivatives instruments, such as interest rate products (i.e. listed futures) in order to monitor the interest rate risk from cash management products (e.g. treasuries). Such instruments may also be used for the purpose of hedging. These may include, but are not limited to, listed futures, options and over-the-counter (“OTC”) instruments (forwards).

The Sub-Fund is addressed to investors with an investment horizon of 4-5 years and capitalizes accrued income.

The Sub-Fund’s shares are capitalization shares.

The positive contribution of ESG criteria can be taken into account in investment decisions but is not a determining factor.

Applications for shares must be received by the Registrar and Transfer Agent at the latest one (1) Bank Business Day before the Valuation Date until the cut-off time fixed at 14:00 (2 pm) Luxembourg time to be dealt with on the basis of the Net Asset Value per share applicable on that Valuation Date. B shares are reserved to investors whose minimum initial subscription amount is 100 Euros.

Liquidity risk: Liquidity risk represents the fall in price the UCITS may potentially have to accept in order to sell certain assets for which there is insufficient market demand.

Counterparty risk: is the risk of a counterparty with which the UCITS has entered into over-the counter contracts being unable to meet its obligations towards the UCITS.

Impact of management techniques, particularly Forward Financial Instruments: The risk entailed in management techniques is the risk of losses being worsened through the use of forward financial instruments such as over-the-counter financial contracts and/or transactions involving the temporary purchase and sale of securities.
